

CERTIFICATION STANDARDS & CORE PLUS DEVELOPMENT GUIDE
LIFE CYCLE LOGISTICS LEVEL I

Type of Assignment	Representative Activities
L1 Product Support Management	Support and provide inputs into cost and performance management across the product support value chain, from design through disposal.
L2 Supply Support	Support the identification of, planning for, resourcing and implementation of management actions to acquire repair parts, spares, and all classes of supply to ensure the best equipment/capability is available to support the Warfighter or maintainer when it is needed at the lowest possible.
L3 Packaging, Handling, Storage & Transportation (PHS&T)	Support the identification of, planning for, resourcing and implementation of management actions to facilitate acquisition of packaging/preservation, handling, storage and transportation (PHS&T) requirements to maximize availability and usability of the materiel to include support items whenever they are needed for training or mission.
L4 Maintenance Planning & Management	Support the identification of, planning for, resourcing of, and implementation of maintenance concepts and requirements to ensure the best possible equipment/capability is available when the Warfighter needs it at the lowest possible Total Ownership Cost (TOC).
L5 Design Interface	Understand and support the systems engineering process to impact the design from its inception throughout the life cycle, facilitating supportability to maximize the availability, effectiveness and capability of the system at the lowest Total Ownership Cost (TOC).
L6 Sustaining Engineering	Understand, recognize the importance of, and assist in supporting in-service systems in their operational environments.
L7 Technical Data	Support the identification of, planning for, resourcing and implementation of management actions to facilitate development and acquisition of information to operate, install, maintain, and train on the equipment to maximize its effectiveness and availability; effectively catalog and acquire spare/repair parts, support equipment, and all classes of supply; define the configuration baseline of the system (hardware and software) to effectively support the Warfighter with the best capability at the time it is needed.
L8 Computer Resources	Support the identification of, planning for, resourcing and implementation of actions to facilitate the acquisition and maintenance of facilities, hardware, software, documentation, manpower and personnel necessary for planning and management of mission critical computer hardware and software systems. Coordinate and implement agreements necessary to manage technical interfaces, and to manage work performed by maintenance activities. Establish and update plans for periodic test and certification activities required throughout the life cycle.
L9 Facilities & Infrastructure	Support the identification of, planning for, resourcing and implementation of actions to facilitate the acquisition and maintenance of facilities to enable training, maintenance and storage to maximize effectiveness of system operation and the logistics support system at the lowest TOC. Identify and prepare plans for the acquisition of facilities to enable responsive support for the Warfighter.
L10 Manpower & Personnel	Support the identification of, planning for, resourcing and implementation of actions to facilitate the acquisition and support of personnel, civilian and military, with the grades and skills required to operate equipment, to complete the missions, to effectively fight or

Education

- Baccalaureate degree in a technical, scientific, or managerial field
- Leadership and management courses such as Harvard Business School (HBS) training modules on the Continuous Learning page of the iCatalog.

Experience

2 years of life cycle logistics experience in support of acquisition or sustainment of DoD weapons/ materiel systems

Notes:

- 1** The Core Certification Standards section lists the training and/or education and experience REQUIRED for certification at this level for this career field within 24 months of assignment.
- 2** "(R)" following a course title indicates the course is delivered as resident-based instruction.
- 3** When preparing your IDP, you and your supervisor should consider the training, education, and experience listed in this Core Plus Development Guide if not already completed.
- 13** Some continuous learning (CL) modules have been created by extracting lessons in their entirety from a training course. If this is the case for the CL module(s) identified in the above Core Certification Standards, the course from which the CL module was extracted is identified in the "Notes" section of the CL course description and the course can be substituted to meet the certification standard.
